

Felipe Alexander Ojeda Gómez

Industrial Engineering Student

Penultimate-year Industrial Engineering student with well-rounded training in process management, project appraisal and data analysis. I have hands-on public sector experience in productive development and project formulation, complemented by teaching skills as a university teaching assistant. I am trained in agile methodologies (Scrum), productivity tools and ICT integration. All of this is supported by my adaptability and proactivity in changing environments and my focus on collaboration within multidisciplinary teams.

Work Experience

- Mar 2026 – **Teaching Assistant, Project Formulation and Appraisal**, *Universidad de La Frontera*, Temuco, Chile.
Present Delivery of workshops, analysis of operational data for project appraisal and creation of teaching materials.
